Portfolio**:** https://rohitimandi-dev.xyz/
A Windows 11-inspired desktop environment showcasing modular React architecture, performance optimizations, and design system foundations.

SUMMARY

Frontend Software Development Engineer with ~2 years of experience building web applications using React, TypeScript, and Next.js. Strong focus on architecture, performance, accessibility, and maintainability.

TECHNICAL SKILLS

Frameworks and Languages: React, TypeScript, JavaScript (ES6+), Next.js, Vite

State Management: Redux Toolkit (RTK Query), Zustand, Jotai, Recoil

Testing & Docs: React Testing Library, Jest, Vitest, Storybook

APIs & Tools: REST APIs, Axios, Git, GitHub, GitLab, VS Code

UI & Performance: Framer Motion, Lighthouse Optimization, WCAG

Product Development: Scrum / Agile, Requirement Translation, System Architecture

Developer Experience: Technical Documentation, Testing Guidelines, Mentorship/Code Reviews, Scaffolding folders and environment setup

EXPERIENCE

Software Development Engineer – Frontend at Savart Nov 2023 – Present

- Worked under senior guidance on a CRM application, later taking ownership of the frontend and independently delivering a second CRM project using React + Vite
    - Implement state management and UI for roles and permission
    - Contributed to route based and component based authorization logic
- Created reusable project scaffolding folder and shared form builder using React Hook Form.
- Integrated APIs using RTK Query and Axios.

- Developed company landing page using Next.js with green Lighthouse scores across performance, SEO, and accessibility.
    - Created pricing and checkout flow with Razorpay payments integration
    - Developed a Backend-for-Frontend (BFF) layer for authenticated apis and state management
- Experience working closely with Figma and design prototypes
- Experience working in early-stage startups and owning projects

PROJECTS

Portfolio OS

- Browser-based Windows 11-inspired desktop environment
- Centralized window and UI state management.
- Fully responsive with a simplified app launcher for mobile devices
- Ensured maintainability and scalability with proper documentation
- Github – https://github.com/NatsuDrag9/portfolio-os
- Live Demo – https://rohitimandi-dev.xyz/
- For recruiters – https://github.com/NatsuDrag9/portfolio-os/wiki/Recruiters
- Storybook – https://natsudrag9.github.io/portfolio-os/storybook/?path=/docs/contribution-guidelines--docs

React State Management Paradigm

- Comparative study of Redux, Atomic, and Signal-based state management.
- Evaluation metrics – Re-render Granularity, Computational Efficiency, Async Flow
- Github – https://github.com/NatsuDrag9/react-state-paradigm-demo
- Live Demo – https://natsudrag9.github.io/react-state-paradigm-demo/

EDUCATION

- MSc Sustainable Energy – Technical University of Denmark (2023)
  Thesis GPA: 10 / 12
- B.Tech Electronics and Communication – Bennett University (2020)
  GPA: 9.8 / 10
